

# DUST CONTROL MATS

Providing the correct floor protection can be vital to image and safety in your business. Our mats provide a vital dust control barrier and customised to advertise your company brand/logo to deliver the best first impression. Advanced technology removes slip hazards in high traffic areas and keeps the mat in place at all times. The dust control mat service is flexible to your requirements and we also utilise our own in house laundry facility meaning your mats are kept in premium condition and we are always in control of the turnaround.

- Designed as a superior dust control barrier, our matting solution offers unparalleled protection against the dirt and moisture that pedestrians can track into a building
- Want to stop up to 80% of dust, dirt and moisture brought into a building within the first 10 to 30 feet? Try our systems designed especially for high-traffic areas.
- Logo mats are available in your company brand in full HD colour symphony
- Solutions to ensure mats do not slip or cause a trip hazard
- Remove slip hazards within your business by utilising a matting solution
- Improve the image of your business using our logo mat design service free of charge
- Our field based team will recommend the right matting solution for your business. We supply and launder mats in one easy comprehensive package.
- Trust Hygiene runs its own laundry plant which cleans and freshens matting to ensure it stays in premium condition
